

**REMARKS**

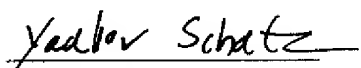

The application comprises claims 1-38, 40-44, 46-47, 57-62 and 66-85, of which claims 66-85 are new. Claims 1-38, 40-44, 46-47 and 57-62 were already indicated as being patentable by the Examiner.

As indicated before, claims 59-60 have been substantially copied from US patent 6,725,259, with the intent of preserving the right to provoke an interference under 35 U.S.C. 135(b) at a later date.

Claims 66-85 are new claims which find support in the specification and claims as filed.

If the Examiner is unable to agree that the claims are all patentable, he is respectfully requested to contact Maier Fenster at toll free 1 (877) 428-5468. This number connects directly to our office in Israel. Please note that Israel is 7 hours ahead of Washington and that our work week is Sunday-Thursday.

Respectfully submitted,  
Moshe KOPPEL et al.
